For Immediate Release:

January 24, 2022

Greetings from Bury the Violence of Buffalo, New York. Our organization is currently launching our new campaign for the year 2022- Operation “Get them Back Home.” Since the inception of our organization, Bury the Violence leads with over 12 years of knowledge and experience in assisting families in locating missing children or runaways with a 100% success rate. We exist and gear our programs to employ an awareness of the long-term effects of missing, runaway, trafficked and exploited individuals.

We are currently seeking help with the visibility of our campaign and kindly request if you could post the missing persons flyer(s) attached to this letter. We ask that the flyers be posted in high foot trafficked area with high visibility. The reason for this, is that we know this initiative aids in the success rate of valuable information and decreases the target areas where perpetrators of these crimes frequent. By posting these flyers your organization is sending a clear message that your organization supports returning missing children home safely.

Additionally, Bury the Violence is launching our safety kits that are created to provide vital information, and preventive devices that will allow individuals of vulnerable & underrepresented communities the necessary tools to locate & decrease the number of missing individuals in those communities. These prevention kits will be most resourceful in the demographic areas where individuals walk alone in comprising locations and are at risk of abduction, human trafficking, or sexual assault. These kits are also extended to others affected by domestic violence, exploitive industry work, and child abuse.

In light of the steadily increasing numbers in missing, trafficked, or runaway children Operation “Get them Back Home” could truly benefit from additional support from your organization. Your donation would help us fill the prevention kits with supplies needed for this initiative. Monetary donations to help purchase supplies for the safety kits are welcomed, as well as physical items such as notebooks, small flashlights, sanitary wipes, first aid kits, cell phones and chargers etc. Thank you for your sponsorship consideration and we look forward to collaborating with your organization for this initiative. Should you have any questions, or need any additional information please contact me at your earliest convenience. For your reference, monetary donations can be made directly by following this link www.btvbuffalo.org under the donations tab. Please contact us via phone at 716-440-4415 to arrange for physical donations of supplies.

Sincerely,

Kareema Morris

Executive Director-Bury the Violence
